

BEACHBAR[®]

KEY INGREDIENTS

PEANUT AND ALMOND NUT BUTTERS

A source of protein and fiber that adds a creamy texture. No one likes a dry, crumbly bar.

DRIED CHERRIES

A flavorful source of beneficial dietary fiber and phytonutrients. Plus, they taste great.

WHEY AND PEA PROTEIN CRISPS

Whey protein delivers all nine of the essential amino acids. Pea protein is a plant-based protein source that also supplies key amino acids. And they're satisfyingly crunchy.

REAL CHOCOLATE CHIPS

Derived from cocoa beans, which contain phytonutrients known as flavonoids. Rich and delicious, the way chocolate chips should be.

DICED PEANUTS AND ALMONDS

A source of beneficial monounsaturated fats (the good kind). They also provide protein and fiber, and add a rich, nutty flavor.

POMEGRANATE JUICE

A source of phytonutrients, and revered for centuries as a powerful fruit. It provides tart, fruity sweetness.
